## 1. Introduction.

Before you lies the purpose of the organization 'Satsang met Rajiv Misra' and its way of working.

The purpose is to develop awareness in everyone about their true nature which is love, peace. This will bring about peace, joy, harmony, caring and sharing in the whole community / society / the world.

This insight can be realized by becoming aware of a universal "being" in every being. Everybody can realize this. Religion, race, life-style or circumstances do not matter.

Our spiritual teacher, Shri Rishi Rajivji Misra, has realized his true nature and shares his wisdom and insights through Satsangs. Satsang is Sanskrit for coming together in truth.

The purpose of this paper is to provide insight into what the organization stands for and to provide transparency about the resources at its disposal. This paper is future-proof because the goal of the Foundation will always be the same: everyone who is interested, regardless of religion, race, nationality or otherwise, is always welcome to realize his deepest essence, his universality, together with and under the guidance of Shri Rishi Rajivji Misra, our teacher.

The organization is an ANBI according to Dutch law and operates on a non-profit basis. The Foundation is connected to a sister organization in America.

## 2: Strategy.

### **Principles of the institution:**

#### Goal:

Guiding people who are searching for the deeper meaning of life so that they gain clarity about this and realize the truth of their 'being'. Becoming aware that everyone has a feeling of 'being' which is not the body and not the mind. Love and happiness are not outside ourselves but are present in everyone, it is our 'being', our own true nature. We just have to be made aware of this.

Shri Rishi Rajivji Misra has an exceptional gift to answer questions in a way that everyone, no matter how different, gets the answer he/she needs. People gain more insight into life's questions, such as 'what happens after death', 'what is the meaning of life', and become more stable and loving. This can create an awareness in society that love and peace really do exist. The whole has a very positive effect on our environment in which care for fellow human beings and praying for love and peace on earth, are important aspects.

#### Profit motive:

There is no profit motive and the board members do not receive any financial remuneration. The Foundation receives its income through voluntary donations, monthly contributions, sales of Satsang products like calendars, booklets and Satsang recordings. Expenses are paid from these donations and income.
